

Workshop 2

Discuss why your agency should NOT encourage the development of kawa as an instrument that can be useful to whānau in modern times.

Give at least five reasons why kawa would not be appropriate as a code for whānau living.

- 1. Its a “Phase thing” Whānau possibly not ready. It’s a timing thing
- The stage of development where organisation may not have the capability
- 2. Kawa should not be taken into individual homes. The kawa is operational on the Marae
- 3. Kawa can be perceived to be Iwi-Centric
- 4. Too hard to contract for reports in the ‘Too hard basket’ for agencies. How do we measure within agencies
- 5. Imposing our own kawa as kaimahi onto others
